

GEOMETRY: PROPERTIES OF SHAPE

NC. Objective: To accurately describe the properties of 2-D and 3-D shapes.

1. During the Winter Festival, the palace floor was decorated with different shapes.

Write a list of all of the shapes you can see.

2. Complete the sentences:

A rectangle has ____ sides and ____ corners.

A triangle has ____ sides and ____ corners.

A circle has ____ sides and ____ corners.

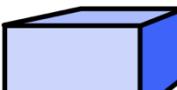

A pentagon has ____ sides and ____ corners.

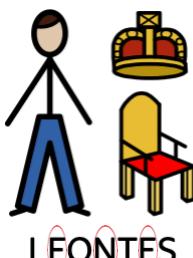

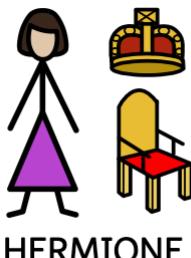

3. Complete this table:

Shape	Faces	Edges	Vertices
 Cube		12	
 Triangular Prism	5		

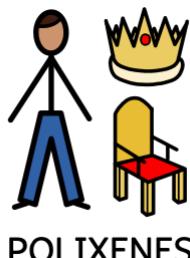

4. Here are some of the characters from the play. Look at their names and circle any letters which have parallel lines. The first one has been done for you.

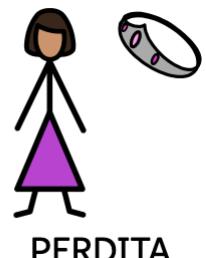

LEONTES

HERMIONE

POLIXENES

PERDITA

5. Tick the names of the 3-D shapes that have no corners:

The diagram consists of four green ovals arranged in a diamond pattern. The top-left oval contains the word 'cuboid'. The top-right oval contains the word 'cube'. The bottom-right oval contains the word 'sphere'. The bottom-left oval contains the word 'cylinder'.

6. Draw a 3-D shape that has 6 faces. Write its name underneath your drawing.
