

## RESOLUTIONS AND FAREWELLS

### CREATE YOUR OWN PLAYLIST

Composers and songwriters have long been inspired by Shakespeare. There are countless operas, musicals, ballets and films based on his plays and all of them require music. Now its your turn to choose the music and you can choose whatever type of music you like!

Please make up a playlist of tracks to tell the story of The Tempest. There are several ways to approach this task -

1. Pick out the plot points and choose music for each on
2. Pick out the themes (i.e. magic, storm, love) and choose music to match each theme
3. Find a piece or song for each main character
4. Find a piece or song for each setting/ place
5. Use a combination of all of the above!

You might like to choose from the music you already have and pick out your favourite tracks or challenge yourself to find stranger things by searching someone else's music collection or looking on Google/ Spotify/ I Tunes/ YouTube etc
