

MATHS

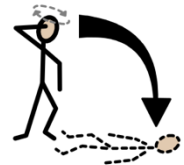

YEAR 4

NUMBER: ADDITION AND SUBTRACTION

NC. Objective: To add and subtract numbers with up to 4 digits and solve 2-step problems.

- When Hermione fainted, the palace servants rushed to help her. 2,458 people were in the hall. Later, 1,326 more people arrived.

How many people were in the hall altogether?

- The servants prepared 4,705 cups of water. During the night, 2,389 cups were used.

How many cups were left over?

- Here is a number.

Thousands	Hundreds	Tens	Ones
1,000 1,000	100 100	10	1 1
1,000 1,000	100		1 1
1,000 1,000			1

Subtract 4 ones. → Add 3 tens. → Subtract 2 hundreds. → Add 1 thousand.

What is the new number?

- Complete the place value chart to show 705.

Thousands	Hundreds	Tens	Ones

Now use the chart to help you solve $705 - 268 =$

5. Mamillius read 325 pages of a manuscript on Monday and 148 pages on Tuesday.

How many pages did he read in total?

6. The villagers baked 600 pies for the weekend. They sold 124 beef pies, 103 chicken pies and 200 fruit pies.

How many pies are left?

7. When Camillo left Sicilia in a hurry, he hid a secret message for Paulina. The message was split into pieces and hidden in different places.

Paulina found 2,348 letters in the palace library and 1,726 letters in the garden.

Later, 1,459 letters were damaged in the rain and were no longer readable.

How many letters are still part of the secret message?
